REMARKS

13/E(122)
3-1-01
H. Jones

1. The items listed on page 2 (third page) of the above identified Office Action have been corrected hereinabove.
 2. However, the requested corrections to the numbering of various elements in the Drawings has already been submitted in previous Amendments.
 3. According to examiner Thompson, one or more amendments filed by applicants have not been entered. This probably is the cause of the confusion concerning this matter. a review of all the amendments filed is requested, and it is believed that this review will reveal that these matters have been corrected.
 4. Also claim 39 has previously been amended to correct this informality in previous amendments.
 5. Applicant has already cancelled "mixtures thereof".
 6. However, Examiner Thompson agreed over the telephone that there was support for "solid" on page 13 of the Specification.
 7. A diligent effort has been made to correct the informalities in the present application.
- It is urged the application is now allowable or in a condition where any out standing issues can be corrected with reference to the previous Amendments filed by Applicant through

Examiner's amendments.

Respectfully submitted,

HENRY W. CUMMINGS
